

Santhoshraagul M B

Associate Software Developer

✉ santhoshraagulmb@gmail.com ☎ 8072043680 🌐 Santhoshraagul

PROFILE

Java Full Stack Developer with experience in **planning, designing, and implementing** scalable Fintech solutions. Skilled in applying engineering methodologies to build production-ready **Spring Boot Microservices** and React.js applications. Proven track record of driving results by **reducing API latency by 93%**. Committed to **owning the customer experience** and working with QA to ensure applications fit specifications and **technical requirements**.

PROFESSIONAL EXPERIENCE

Associate Software Developer

08/2025 – Present

FinSurge Pvt Ltd

Project: TBank - LOS (Loan Origination System)

- **Performance Engineering:** Achieved a **93% reduction in execution time (20s down to 1.3s)** for the CIB module by re-architecting synchronous workflows into **asynchronous, parallel processing pipelines** using Java's CompletableFuture.
- **Complex Integration:** Orchestrated a dynamic payload generation engine to transform complex XML/JSON datasets, solving **impedance mismatch** challenges by mapping hierarchical API responses to a normalized database schema (1000+ fields).
- **Inter-Application Communication:** Engineered a seamless data synchronization pipeline to securely transmit validated loan data from LOS to an external **Document Management System (DMS)** via RESTful APIs.
- **Testing & Debugging:** Collaborated with the Quality Assurance team to **test and debug** defined software components. Optimized MySQL queries via JPA/JPQL for faster retrieval and integrated JWT Authentication for secure role-based access.

Software Developer - Intern

02/2025 – 08/2025

FinSurge Pvt Ltd

Project: Resource Management Tool

- **Digital Transformation (UI):** Led the frontend migration of the **Exit Clearance** and **Performance Appraisal** modules, converting manual paper-based workflows into digital, multi-stage application forms using **React.js**.
- **Feature Development:** Designed and implemented the User Interface for a new **Leave Management System**, benchmarking industry standards (similar to Greythor) to deliver a seamless self-service experience.

SKILLS

- **Languages:** Java, C
- **Frameworks:** Spring Boot, Microservices, Hibernate (JPA), RESTful APIs
- **Frontend:** React.js, Material UI, HTML5, CSS3
- **Database:** MySQL
- **Engineering Tools:** JUnit, Postman (API Testing), Git, Swagger/OpenAPI (Documentation), Debugging & Analysis
- **Core Concepts:** Data Structures & Algorithms (DSA), OOPS, Low-Level Design

EDUCATIONAL CREDENTIALS

Bachelor of Electronics and Communication Engineering

10/2021 – 04/2025

National Engineering College

CGPA - 7.9

CERTIFICATES

Master Data Structures & Algorithms

Certified by Curious Freaks - Demonstrated proficiency in optimizing code performance.
